WEBSITE GROWTH AUDIT

# Al Ibtikar PolyClinic

alibtikarmc.ae | Abu Dhabi, UAE | Prepared for the Al Ibtikar team

An Abu Dhabi polyclinic page for aesthetics appears to lose enquiries to a garbled address, a malformed phone link and no booking path.

## What I found on your website

| What I saw | What it costs you | The fix |
|---|---|---|
| The address appears to contain leftover Arabic listing text, and the map links appear to point to a Dubai location. | Patients may go to the wrong place or doubt the clinic is real. | **One clean address and a correct map link.** |
| The phone link appears to lack a tel prefix and country code, and the mobile number appears in two different versions. | Mobile visitors tapping to call may get nothing or reach the wrong line. | **One verified number with a proper call link.** |
| The only call to action appears to be Get Started, which goes to a contact page, with no appointment form. | Patients ready to book have no easy next step. | **A booking form on the page.** |
| No practitioners, credentials, reviews, prices or before and after examples appear, and the clinic name appears three ways. | Patients choose clinics that show who treats them and the results. | **Named practitioners, reviews and one brand name.** |

## What your new website will do for Al Ibtikar PolyClinic

- Clean address and map.
- Working call link and booking.
- Practitioners and reviews.

## How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
