RISETRACK

Why now, and how to move forward without stress

A light budget, paid week by week, with a visible result every week. You simply choose your plan.

What it changes for RiseTrack

It finally earns money
Without a subscription, nobody can pay. With the Premium subscription, every new user can become revenue.

Users stay
A habit app lives on its reminders. Without notifications, people forget, then they leave.

It looks solid
A Base44 badge, habits that disappear or bugs give an unfinished image and cost bad reviews.

Apple stays happy
Complete account deletion is required by Apple. Doing it now avoids a rejection later.

The right time is now: the app has just been approved by Apple. This is the period when you can attract your first users and first reviews. Waiting means letting that momentum pass.

An example: how the investment pays itself back

Illustrative example, not a promise. Imagine a subscription at **CAD $6 per month**. After Apple's commission (about 15 percent for a small business), about **CAD $5.10** remains per subscriber per month. The Revenue option (**CAD $1,600**) is then paid back with about **26 subscribers for one year**. Every subscriber after that is profit. You choose the price of your subscription.

A friendly budget: you pay week by week

PLAN	TOTAL	DURATION	WEEKLY PAYMENTS
1 START	**$430 CAD**	3 weeks	Wk 1: $100 (badge and top of screen). Wk 2: $130 (habits). Wk 3: $200 (important bugs).
2 REVENUE	**$1,600 CAD**	7 weeks	First 3 weeks like Start, then wk 4: $170 (account deletion and logo), wk 5: $350, wk 6: $350, wk 7: $300 (Premium subscription, in stages).
3 COMPLETE ESSENTIALS	**$2,180 CAD**	10 weeks	Like Revenue, then wk 8: $200 (free trial and price page), wk 9: $190 and wk 10: $190 (notifications).

All amounts are in Canadian dollars (CAD). Every week: you pay, I deliver something visible. If a payment is too big for one week, we split it over two weeks.

No risk for you

- **You only pay before each item,** never everything in advance.
- **You can stop whenever you want.** You only pay for what you chose.
- **You see the result every week** before deciding to continue.
- **Your Apple approval is protected:** everything is tested on iPhone before sending.

Simply choose: 1, 2 or 3.

I start as soon as the first payment is made. If it is not the right time, tell me, no problem.
